Number 42.

The Marriage Law as Amended.

The act entitled "An act relating to

marriage licenses, providing for officers indicated to issue licenses for parties to

marry," was amended by the last Legislature to read as follows:

The clerk of the court shall inquire of

the parties applying, either separately or together for marriage license as afore-said, on oath, or adirmation relative to the legality of the contemplated marringe; and if there be no legal objection thereto, then he shall grant such marriage license; or the parties intending marriage may either separately or to-gether appear before any magistrate, al-

lerman or justice of the peace of the peace of the township, ward or county

wherein either of the contracting parties

reside, and in the county where the li-

conso is desired, who may, and is hereby

authorized to inquire of them, touching

the legality of their contemplated mar-

riage; and such inquiries and the answer

thereto baying been subscribed and

sworn to by the parties before such officer,

may be forwarded to the clerk of the

court, who, if satisfied, after an exam-

ination thereof, that the same is genuine

ions of this act, shall be entitled to the

um of lifty cents.

→ MIDSUMMER!→

The question engaging the feminine mind at this time as how pany has declared a semi-unnual divi- to dress so as to be at once well dressed and comfortable this hot weather is best answered by looking over our stock of hot weather dress materials. We cannot refrain from mentioning a few out of our stock-by way of suggesting the things we think the most desirable. Cream, Pink and Sky Blue AL-BATROSS and NUN'S VEILING, (Black for mourning,) which, with Cream EGYPTIAN SKIRT-LENGTH LACES, are dividing the honors with WELT PIQUES, all of which we have in varicty of qualities. These goods we name first because they are very popular selling goods and make a dress better adapted to the cool nights we so frequently have. For the Welts we have Skirt-length Pique Embroidery, something handsome, also Braids for braiding.

We have all qualities of India Linons, and among them two of extra value at 12½ and 15 cts. French Nainsook, Pure White and Ivory, both sheer and medium heavy weight, which we recommend specially for its laundry qualities and fineness. We have for these thin materials Laces and Embroideries, from narrowest to skirt-length. WHITE WRAPPER PLAIDS in varicty at 8, 10, 12½ and 15 cts., the last named are worth 25 cts. Refore we go any further with thin dress materials we want to say a word more about EMBROIDERY AND LACES. We carry a much larger stock of these goods than you will find elsewhere, from which you are certain to be suited in width and style. We pay special attention to buying and insure you being suited in price. Spanish Guipure Black Laces, from narrowest to skirt-length, Black Escurial Laces, Ecrue, Beige and Cream Egyptian Skirt-length Laces, from 60 cts. up, all widths. Fancy and Colored Laces in great variety. Swiss and Nainsook Embroideries, from the tiny edge to skirt-length, at least fifty styles in the different widths. We are without doubt head-

quarters for Trimmings. french satines, domestic satines, printed linon-de-inde, ladies' muslins, batistes, crinkles, CHAMBREYS, &C., all in greatest varieties. Fancy Trimming

Laces to match many of them. Parasols and Fans. You will be sure to be suited in this line, as our variety is large and prices range from lowest up. Our stock of Summer Underwear, Gloves, Hosiery, &c., is as complete as can be found.

Our Own Prices, that have made us so popular, rule on evcrything in the store.

And turned the sigh into a laugh, Pumpkins and squashes can be grown "A suit of clothes for 12 'n a half | profitably when planted in this month. The Connecticut field pumpkin requires | Why, 20 years ago, or more. That suit would cost me 24. the shortest season, and I would recommend that this variety be planted after Again he figured. "Well, I vow!" June 15. It is very prolific and, having a He oried. "Times then were hard a cattle—can eat it without cutting. I The higher prices were as naughtsoft, spongy flesh, stock-both hogs and have grown full crops of Hubbard We paid the more for what we bought squashes planted during the last hulf of It takes no bigger crop to-day Than it did then to pay our way; June as a second crop following early No more of butter, pork and when potatoes. The Canada crookneck is an To furnish us with what we eat." enormous yielder and may be planted

Sweet corn is another crop of great | Our crops are raised for so much less. value to the stock, and can be grown to Thus looking at the matter right, its full development if planted any time | The furmers' prospects still are brigh in June. If one cannot get Stowell's And Brown, with team in lively brot, evergreen, which I consider the best for | Whistled a tune he'd long forgot, stock, some smaller variety may be plant. And those who saw his merry mood ed, or, if sweet corn seed cannot be had Supposed that prices must be good, plant an early variety of field corn. I For how could any farmer show have planted field corn the last week in Such spirits high, with prices low? June which passed the roasting car stage before frost and gave good satisfaction for feeding hogs and cattle. 1 think the Stowell sweet corn will give more feed to the acre, however, as the palatable, and many of the stalks will MORE.—The editor of the Complete in the dry, as well as in the green state

hay in stacks or barns: "Hay contains would recommend Burbunk, Peachblow matter that is soluble in water. For and Carter potatoes for late June plant. this reason all exposed lany on the exterior of stacks is subject to having ing. They are all among the very best washed from it much soluble matter. for late winter and early spring uso. Hungarian grass and millet should In round stacks the amount of hay thus now be sown, and may be as late as the exposed is much larger than is usually supposed. A body only one foot in di-1st of July, but June is generally better. ameter contains one-fourth the matter that a body 2 feet in diameter does. A stack of hay twelve feet in diameter and

If friends from the city visit you in six feet to the point of its drawing in your country nome, it is well to remem- and five feet more to the top of its cone, ber that they care more for the kind of will contain on its outside foot, at 450 entertainment which speaks of the coun- feet to the ton, 288.59 pounds of hay, try proper than your variation of that to while the interior will contain 580.40 pounds. Thus,38 per cont. of the hay of which they are accustomed. Therefore, the ordinary round stacks of the State is found on the outside foot of those stacks. do not trouble yourself to give them pastry and cake, for they will, no doubt, prefer the products of the farm and garden. Fresh eggs, milk and fruit, in ously subject to less by leaching rains all their freshness and goodness, are by moulding and by actually rotting in laxuries indeed. But what shall we do, badly constructed stacks. It was said you say, when unexpected company by one who handled hay during last year arrives and there is only a ham bone and I that one half of the hay of this country some crackers in the larder? Why, I was so damaged as to be virtually worth take your friends in your confidence and have a good laugh over the absurd side of the affair, then consult with them; something timely will be sure to be suggested among you all. I think there is no situation quite hopeless with a bright fire and a ctean tablecloth as a basis of operations. Do you remember in Bret Harte's story, "Who'll bear a hand," says Miggles, "and help get supper?" when the stage-load of passengers came to her cabin in the rainy evening. That is the way I would do. Toss out some kitchen aprone, give each one a task to do, and you can have a mercler meal than under the most favorable circumstances .- The Ohio Farmer.

GRAVEL .- A 72-year-old farm horse is at times troubled with the gravel. I with water which cannot es. po. If we understand he has been so affected for fill a bowl with water, the water rehim to make water. His feed is corn in the bottom of it the water flows away years. Occasionally it appears to pain on the ear. v. M. R. Kent Co., Del. und the bowl becomes filled with ah. If the bowl is filled with sand or gravel it for said the low tablespoon als of bicarbonate of said tables at the bowl is filled with sand or gravel it to said tables at the bowl is filled with said or gravel it to said tables at the bowl is filled with said or gravel it to said tables at the bowl is the of soda twice a day for a month. Skip furnishes an example of so much soil in two weeks, then feed one spoonful twice a field. If the hole in the bottom is STINLE-JOINT OUT OF PLACE. - and gravel are filled with water; when a day for a month.

What treatment is necessary for yearling colt whose upper leg joint comes
out—what is commonly called "stiffejoint? A. s. Johnstoon, N. Y. [Keep
him up and apply gelden blister. In two
weeks turn him out, and in four weeks weeks turn him out, and in four wooks we perceive at once the need of drains after first application put on another. to remove the water which cannot get He should be kept quiet certainly for away without them, and how the drains two weeks after each application, and as act when they are made. Now, water he is a colt, you will not lose the use of him. Sometimes it is necessary to bils-air is able to act at the same time. A ter three or four times, as the ligaments place of steel or iron in pure water will not lose its brightness, when it is expos-DERNCHING—CASTORS.—I bought ed to water and air at the same time it rusts or oxidizes very rapidly. And this have been over-extended.

attempt to drench my cows. Can the drink be put in enough liquid food to in. The rust is the effect of the oxygen and duce them to drink it, and at same time sometimes indirectly of the carbonic produce the desired effect? Or could you prepare powders to put in meal to way the soil that is alled with water produce the same effect as the cow drink? does not change. When, however, we I am always fearful of drenching either drain it and the air follows the escaping herses or cows. Many here drench water it acts with considerable vigor. through the nose, and I always wish the If plants are growing in the soil, they do same remedy could be applied to them. not thrive while it is filled with water.

(1) What is the name of the small places but in drained soil in which water and of horny substance which grow on horse's front legs, inside, just above the knees, and below the hocks on the hind the soil then supplies them with abundlegs? (2) W. H. B. Calkow, Ga. [1].

An animal should never have medicine poured into the nose; it is a needless crueity and liable to kill the patient.

Throughing when well a better the source of the constant presence of water. But this frequent interchange of water and air sets free plant food. Drenching, when properly done, is at-tended with some danger. We could soll adds to its fortility as well as gives supply such powders, but animals often more vigorous health to the plants.- N. need needleines that they will not eat.
2. The growths are termed castors. LOUD BREATHING .- A young horse

that I have just commenced to drive. breithes very lond, or wheezes, when ing hints for the benefit of those who she first starts out. After she is driven a little, you do not hear it. She never 1.
